anup-portfolio-one.vercel.app

Master's graduate in Computer Information Systems with hands-on experience in Python, SQL & NLP. Completed thesis on bias mitigation in mental-health sentiment analysis using BERT. Seeking roles in Data Analysis, Business Analytics or Junior Software Development in Nepal.

WORK EXPERIENCE

Graduate Researcher · MCIS

2022 – 2026

Nepal College of Information Technology (NCIT) · Kathmandu

- Completed thesis on bias mitigation in mental-health sentiment analysis using BERT.
- Worked with Reddit-based mental-health datasets and fairness evaluation metrics.
- Explored data analytics, NLP methodologies, and teaching-oriented career development.

THESIS

Bias Mitigation in Mental Health Sentiment Analysis Using BERT with Fairness Techniques

Software Developer (Remote – Freelance)

Jan 2021 – Jul 2022

Texas-based IT Firm · Remote

- Backend development using Java & Spring Boot for multiple client projects.
- Feature implementation, debugging, and collaboration with global distributed teams.

Teaching Assistant (DBMS)

Feb – Sep 2018

College of Applied Business

- Conducted MySQL lab sessions and assisted students with SQL queries and schema design.
- Supported students in understanding database concepts and debugging assignments.

Manager

Feb 2011 – Mar 2016

Mama Rose's Restaurant · Estes Park, CO, USA

- Managed day-to-day operations, staff scheduling, inventory, and vendor relationships.
- Led a multicultural team to improve service efficiency and customer satisfaction.

KEY PROJECTS

Mental Health Sentiment Bias Study

BERT · Python · HuggingFace · Fairness Metrics

Analysed and mitigated demographic bias in NLP models applied to mental-health Reddit data using fairness-aware fine-tuning of BERT.

Data Analytics Pipeline & Dashboard

Python · Pandas · SQL · Tableau

End-to-end analytics workflow with data cleaning, EDA, SQL queries, and interactive Tableau dashboards for business reporting.

EDUCATION

M.C. Information Systems (MCIS)

NCIT, Pokhara University

Graduated 2026 · CGPA: 3.71

B.Sc. Computer Information Systems

Columbia College, Denver CO

Graduated 2014 · CGPA: 3.34

CERTIFICATIONS

- Google Data Analytics Certificate
- Python for Everybody — Univ. of Michigan
- Building Modern Java Apps on AWS
- Intro to Generative AI — Google Cloud

CURRENTLY EXPLORING

- Advanced fairness techniques in ML
- Applied NLP for low-resource languages
- Data storytelling with Python & Tableau
- Academic lecturing & curriculum design
